

This installation manual contains only the descriptions of how to install the Signal Receiving Unit (PAR-FA31MA). For information about the PAR-FA31MA receiver, refer to the PAR-FA31MA receiver manual. The Signal Receiving Unit (PAR-FA31MA) is described below the supply and then install the Signal Receiving Unit (PAR-FA31MA) receiver.

1 Safety Precautions

- The following safety precautions are to be observed to prevent damage that may be caused by incorrect use and handling.
WARNING: This system must be installed by a qualified electrician.
CAUTION: This system must be installed by a qualified electrician.

CAUTION

- Do not install in any place where the unit may be exposed to rain, snow, or other weather conditions.
Do not install in any place where the unit may be exposed to direct sunlight.

2 Confirming the Supplied Parts

Check that the box includes the following parts in addition to the installation manual:

- 1 Remote control (2 pcs)
2 Remote control (2 pcs)
3 Remote control (2 pcs)

NOTE: The remote control (2 pcs) is not supplied with the equipment and must be purchased locally by the customer.

3 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

4 Test Run

When testing, observe the following steps:

- 1 Turn on the main power to the unit.
2 Press the ON/OFF button.
3 Press the MODE (COOL/HEAT) button to switch the mode.

5 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

6 Test Run

When testing, observe the following steps:

- 1 Turn on the main power to the unit.
2 Press the ON/OFF button.
3 Press the MODE (COOL/HEAT) button to switch the mode.

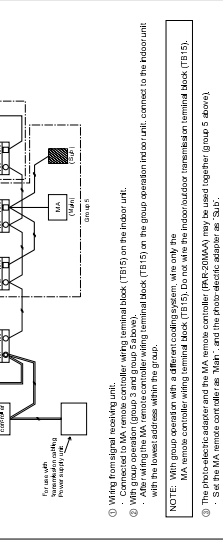

7 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

This installation manual contains only the descriptions of how to install the Signal Receiving Unit (PAR-FA31MA). For information about the PAR-FA31MA receiver, refer to the PAR-FA31MA receiver manual. The Signal Receiving Unit (PAR-FA31MA) is described below the supply and then install the Signal Receiving Unit (PAR-FA31MA) receiver.

3 Example of System Configuration

4 Setting the Pair Number & Main/Sub Switch

Setting pair number of the wireless remote controller and the Signal Receiving Unit.

2 Controlling the Delivered Parts

Verify that the box includes the following parts in addition to the installation manual:

- 1 Signal receiving unit (1 pc)
2 Remote control (2 pcs)
3 Remote control (2 pcs)

NOTE: The remote control (2 pcs) is not supplied with the equipment and must be purchased locally by the customer.

3 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

4 Test Run

When testing, observe the following steps:

- 1 Turn on the main power to the unit.
2 Press the ON/OFF button.
3 Press the MODE (COOL/HEAT) button to switch the mode.

5 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

6 Test Run

When testing, observe the following steps:

- 1 Turn on the main power to the unit.
2 Press the ON/OFF button.
3 Press the MODE (COOL/HEAT) button to switch the mode.

7 How To Install

Be sure to observe the following steps:

- 1 Choose a place in which to install the Signal Receiving Unit (switch box).
2 Mount the Signal Receiving Unit (switch box) on the wall.
3 Connect the Signal Receiving Unit (switch box) to the indoor unit.

This installation manual contains only the descriptions of how to install the Signal Receiving Unit (PAR-FA31MA).
