PLP-6BAJ

Grille with Automatic Filter
Lowering Function

Making a
World of
Difference

CITY MULTI

Mr.SLIM.

The PLP-6BAJ Automatic Filter Elevation Grille offers an automatic lowering function to provide easy filter maintenance, maximising energy savings for the PLA/PLFY-VBM-E range of 4 way blow cassettes.

Key Features

- Improves energy performance with regular filter cleaning
- Fast and easy access for high ceilings up to 4m
- Improved health and safety, and reduced maintenance time
- Filter can be cleaned by non-skilled workers reducing cost
- Reduced ceiling staining
- The PLP-6BAJ Automatic Filter Elevation Grille is extremely versatile and is designed for easy use

PLFY-WP CITY MULTI HYBRID HVRF	PLFY-WP32VBM-E / PLFY-WP40VBM-E / PLFY-WP50VBM-E

Grille with Automatic Filter Lowering Function (Optional)

An automatic grille lowering function is available as an option on our range of PLA/PLFY-VBM-E 4-way blow cassette indoor units. This unique product allows for easy filter maintenance without the need for towers or ladders to gain access to high ceilings. The grille can be lowered to a maximum of 4m from the ceiling in eight stages and the filter can simply be unclipped, cleaned and re-inserted easily. Keeping filters clean saves on energy and reduces the stains and smudging on ceiling tiles caused when filters become dirty.

Elevation Grille Remote Controller
(comes with the grille)

PAR-31MAA
Wired Remote Controller
(Optional)
