

Touchscreen system offers complete control for PACAIR

When Value Added Reseller PACAIR moved into their offices, Mitsubishi Electric was the air conditioning manufacturer of choice.

For overall control an AG150 centralised system was chosen as the perfect solution for PACAIR's office.

It's 9" touch screen controller provides complete control of the office air conditioning and the ability to set up a weekly time schedule, as well as offering energy saving features.

Making a
World of
Difference

Installation Summary

PACAIR selected the AG150
Centralised Controller

9" touch screen controller
provides complete control of the
office air conditioning

Ability to set up a weekly time
schedule

Network access allowing full
control from desktop

The AG150 Centralised Controller has been installed in the meeting room for demonstration purposes, but can be locked to stop unapproved changes to the set profile.

The AG150 has also been connected to the office's network so that the director and technical manager can have full access to the controller and air conditioning from their desks.

In addition, each staff member can access a PAR-21PC (via their local desktop machine) to change the individual settings of air conditioning in their vicinity.

A PAC-YG60MCA interface has been installed for energy monitoring purposes.

“This is the best way to see how much energy we are actually using to operate our air conditioning” said Nigel Palmer, PACAIR Director.
