

R2 Series VRF

Standard Efficiency (22.4-45kW)

Simultaneous Heating and Cooling with Heat Recovery Outdoor Unit

Throughout the year, many buildings require cooling in some areas and heating in others - even in adjacent rooms. The outstanding City Multi R2 system meets these requirements by distributing surplus heat from cooling operations (and vice versa) to rooms where it is needed. This efficiency can result in energy savings up to 30% over conventional systems.

Key Features & Benefits:

- High efficiency heat recovery system
- Delivers the highest levels of comfort, both thermally and acoustically
- Flexible design, installation and maintenance
