Construction U-Values provided by the customer OR will be taken from the latest edition of Building Regulations Part L.

Important Acknowledgement: Client confirming to this agreement, acknowledges that Mitsubishi Electric will engage a third party industry-recognized professional design consultancy to undertake the house heating system design for the contractor/developer. Any subsequent design variation requirement should be discussed with Mitsubishi Electric before proceeding. Amendments to original designs could incur a cost. Mitsubishi Electric does not accept any design liability for the design services carried out by the Design Consultancy in relation to this project. Initial and subsequent charges incurred by Mitsubishi Electric for all designs will be invoiced in the circumstance that alternative manufacturer is used on the formentioned project. If U Values or SAP calculations are not provided the building regulations part L will be used which might result in oversizing of radiators and heat pump.
