

# PEA-M R32

Large Capacity Ceiling Concealed Ducted System  
Standard Inverter Heat Pump (Three Phase)

Mr.SLIM™

The cost-effective **PEA-M Standard Inverter** large capacity ducted system offers high levels of design flexibility and energy efficiency for larger scale heating and cooling applications. The unique design allows the fan and coil sections to be split, facilitating installation where ceiling void space is limited.

Working with extended lengths of ductwork through a 250Pa fan setting, the system is ideal for hospitality, warehouse, atria and large retail applications.

**R32** *INVERTER*

## Key Features & Benefits:

- Full heating capacity down to -3°C
- Unit can be separated in to two parts, allowing ease of installation in a congested ceiling or through a service hatch (re-assembly required for operation)
- Energy usage display (requires PAR-41MAA controller)
- 'Backup and Rotate' feature reduces load on individual units and prolongs product life (requires PAR-41MAA controller)
- Advanced airflow and smart defrost features to maximise comfort levels
- Ultimate ductwork flexibility through 5 Static Pressure settings up to 250Pa

# R32
