

# SO QUIET

## WE HAD TO SHOUT ABOUT IT

### ULTRA QUIET ECODAN

The NEW LOW NOISE  
air source heat pump, designed to  
provide a home with reliable,  
trouble-free renewable heating  
and hot water

**ecodan**<sup>®</sup>

Renewable Heating Technology

Designed specifically  
for UK homes

REFINED USING  
OVER

# 10

YEARS  
OF KNOWLEDGE

NOW WITH A

# 8 dB(A) drop

IN SOUND  
POWER OUTPUT

**58 dB(A)** Sound Power Level (8.5kW model)

# 3x

**QUIETER**  
THAN PREVIOUS  
MODELS

Allows installation  
under Permitted  
Development

**8.5kW** and **11.2kW** capacities available

### TYPICAL SOUND PRESSURE LEVEL EXAMPLES

**120**  
dB(A)

**80**  
dB(A)

**60**  
dB(A)

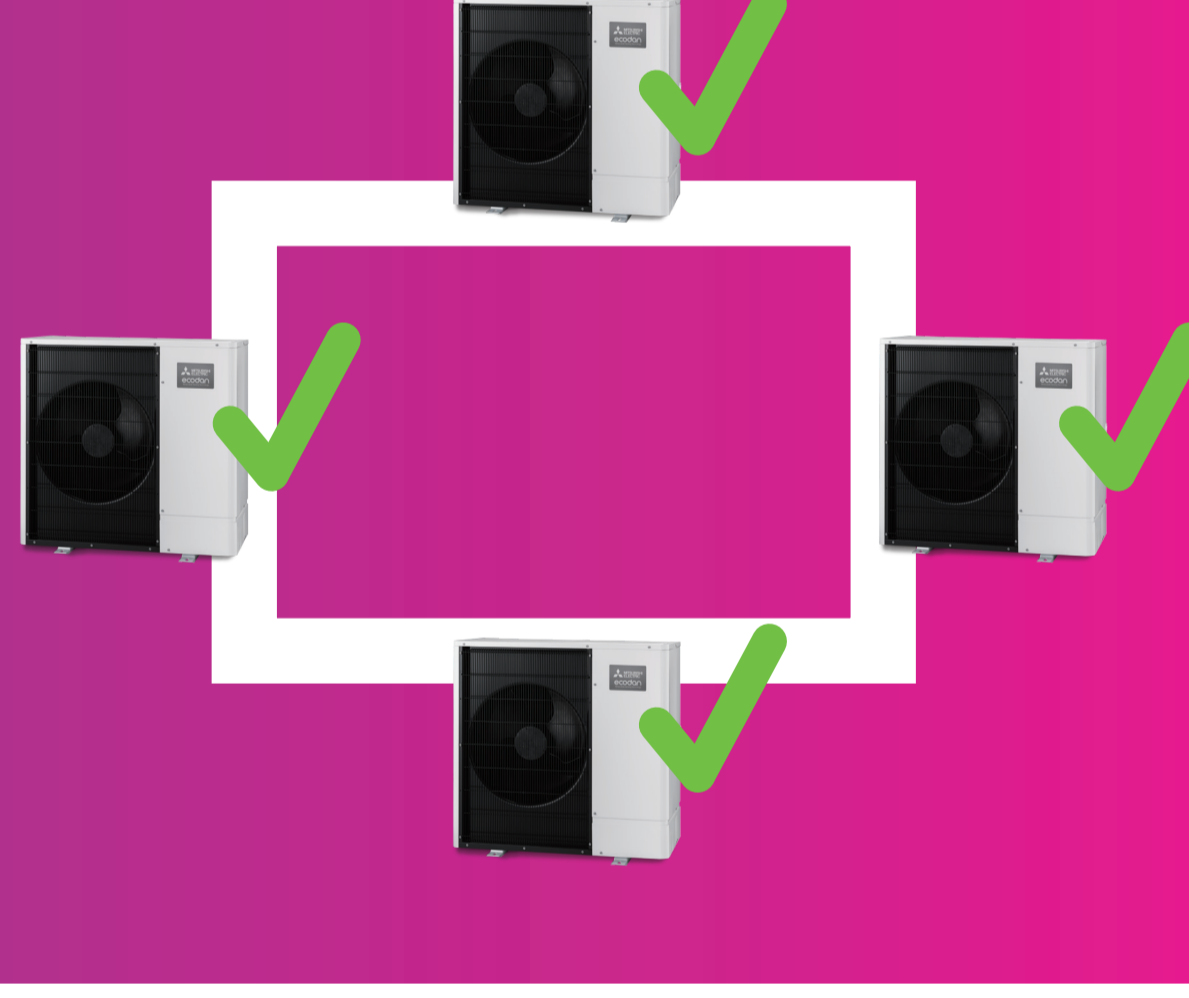

# 45

dB(A) at 1m  
(8.5kW)

This means the **Ultra Quiet Ecodan** has  
a sound pressure level **similar to a Library**

LOW SOUND  
=  
**FLEXIBLE  
PLACEMENT**

## NEIGHBOUR FRIENDLY

One of the regulations under **Permitted Development**,  
is that the sound pressure level of an air source heat pump must  
**not exceed 42 dB(A)** when measured at a point 1m from  
the neighbours nearest door or window (Assessment Position)

With class leading **sound power levels**  
of just **58 dB(A)**, Ultra Quiet Ecodan can be located much  
closer to the Assessment Position and pass planning

**Ultra Quiet performance** means home owners can  
now choose the most convenient location for their Ecodan

# 7%

**MORE  
EFFICIENT**

**CLASS LEADING  
PERFORMANCE**

In flats, bungalows, houses and even stately homes — **there's an Ecodan to suit every need.** Whether in a new-build or an existing home, working on its own, or in conjunction with an existing heating system, **Ecodan can help cut energy bills**
