# Ecodan Heat Pumps

## Renewable Heating Systems

There is now no doubt that the world is in a climate crisis and that we need to act immediately to avoid catastrophic climate change. The UK Government have reacted by being the first major economy to pass net zero (Greenhouse Gas) emission laws. Renewable technologies, such as heat pumps, have become an integral part of the solution to the problem of reducing carbon emissions generated through heating.

As a market leader in both commercial and domestic heat pumps, Mitsubishi Electric is a pioneer in the development of this renewable technology. Around the world, heat pumps have been utilised for decades and Mitsubishi Electric has refined this technology to produce Ecodan - one of the most advanced, efficient heating systems available on the market today.

**TV presenter, architect, lecturer and writer, George Clarke is a passionate advocate of design excellence and high levels of quality in the construction industry.**

“ The way we design, build, heat, power and recycle our homes needs to change, and change quickly, and renewable heating is an important part of our future.

I'm therefore delighted to associate myself with Ecodan, the market-leading brand of heat pumps built here in the UK and which can help reduce energy bills and lower emissions for almost any home. ”

**George Clarke**

Ecodan Brand Ambassador

# Outdoor Units

The Ecodan range of heat pumps are self-contained units that only require water and electrical connections. Our innovative range of products are easy to install, simple to maintain and offer market leading low noise levels.

Ecodan heat pumps are available from 4kW up to 960kW, making them suitable for virtually any property, from small flats to large detached houses, from an office block to a school. They are the renewable, low carbon alternative to traditional high carbon heating systems.

# Cylinders

The Ecodan range of Packaged, Pre-plumbed and Versatile Cylinders offer a highly adaptable heating solution for a variety of homes. Designed specifically to operate with Ecodan heat pumps, the cylinders are offered in a number of models.

A Packaged option with a white goods finish, a Pre-plumbed option for ease of installation, and a Versatile option with the flexibility to meet most installation requirements. The Pre-Plumbed and Versatile models, available in Slimline and Standard variants, are ideal where space is limited.

# Fan Assisted Radiators

Our i-LIFE2 Slim fan assisted radiators are an ideal compliment to either an air source heat pump or your existing heating or gas boiler system. Offering fast response times and intelligent control for the ultimate heating experience.

# Ventilation

With over 50 years of experience in manufacturing heat recovery ventilation, Mitsubishi Electric knows that the best ventilation systems to maximise the health and wellbeing of occupants need to be quiet and easily maintainable.

The residential range of Lossnay heat recovery systems are easy to install and commission, offer market leading noise levels, and have easily accessible filters.

# Partner Programme

**The Mitsubishi Electric Partner Programme forges the link between our innovative products and your professional installations.** Once accredited, your company can benefit from our Relationship Development Fund (RDF) which will grow with the amount of business you do with us. This reward scheme was created to financially support joint sales and marketing activities that will help improve and expand your business.

## Summary of Accredited Installer Benefits:

### ■ Showroom Equipment

All partners are eligible to purchase Mitsubishi Electric equipment for their premises and showroom. Once purchased and installed, we will match fund you up to 50% from the RDF programme.

### ■ Website Development

We can support you in the redesign or updates on of your company's website to include our logos, product shots and information on our product range. Please contact us for images and content.

### ■ Vehicle Livery

Promote your company alongside Mitsubishi Electric on your company vehicles and we will match fund you up to 50% from the RDF programme.

### ■ Case Studies

Case Studies, or examples of individual installations, are an excellent means of promoting our joint business activities together. Whether your installation is large or small, we can help you promote your success stories to generate enquiries and help to grow your business.

### ■ Workwear and Promotional Goods

Take full advantage of your RDF by enhancing your company image with dual branded work wear and promotional items from our Promotional Goods RDF Catalogue, and we will match fund you up to 50%.

## ■ Product Training

We offer a variety of training courses, ranging from the simple to the more intricate, all of which are designed to enable technical engineers to design, install or maintain our systems. Use 100% RDF to fund your colleagues training sessions with us online or face to face.

## ■ Advertising and Brochures

We are happy to support partners with the production of your company joint promotions, press and brochures using up to 50% RDF.

## ■ Exhibitions and Seminars

Exhibitions and seminars provide an ideal opportunity to promote your business and show potential customers the benefits of Mitsubishi Electric's product range. We can help you plan, support and contribute towards the costs.

## ■ Ecodan Selection Tool for Installers

This online tool has a free to access section designed for homeowners and a more immersive section for partners who have registered a request for access. This installer section allows for whole house and room by room designs to be undertaken and will issue a professional report which can be used to support your design process.

## ■ Customer Hospitality

Developing business relationships in an informal environment can be mutually beneficial to both you and your clients. We will match fund qualified customer hospitality activity via the RDF programme, where a Mitsubishi Electric representative attends. We also now offer 100% RDF events that your company colleagues and customers can join. Get in contact to find out about our latest events!

## ■ Technical Helpdesk

To assist our partners in the repair and maintenance of Mitsubishi Electric equipment, we have a dedicated team of industry experienced engineers based in the UK who will endeavour to speedily diagnose faults and offer solutions to the problems.

## Overview of heating benefits per account status

Product Type	Standard Account Holder (SAH)	Accredited Ecodan Installer (AI)	Business Solutions Partner (BSP)
Ecodan Selection Tool Access	No	Yes	Yes
Product Warranty (Ecodan <20kW)	3 Years	5 Years* <sup>1</sup> * <sup>2</sup>	7 Years* <sup>1</sup>
Free Training Sessions (per annum)	0	0* <sup>3</sup>	5* <sup>3</sup>

\*<sup>1</sup> For air source heat pump outdoor units only. \*<sup>2</sup> Extension from 5 years to 7 years available via a warranty extension package (See page 27).

\*<sup>3</sup> Training sessions can be 100% funded via RDF. For complete details please consult our T&C.

For further information please contact your Partner Programme Co-ordinator at [partner@meuk.mee.com](mailto:partner@meuk.mee.com) or call **01707 288757** (Please note this is for direct sales only)

# Coastal Protection Models (-BS)

The Ecodan coastal models are designed to protect against the corrosive effects of environments that are in close proximity to the sea. By enhancing the corrosion protection of key components, we can ensure that even in aggressive coastal areas, Ecodan will continue to provide low cost renewable heating for years to come.

**Note:** 1. If possible avoid siting the Ecodan in direct exposure to sea spray. 2. Ensure rain water is able to fall onto the Ecodan and avoid placement directly under building eaves  
3. Ensure horizontal installation for good drainage. 4. Regular inspections and washing of unit with fresh water is recommended. Any scratches should be repaired as soon as possible

# MELCloud and MELConsole Wi-Fi Connectivity

**MELCloud** is a cloud based solution for controlling your Mitsubishi Electric Ecodan heating system either locally or remotely by PC, Mac, Tablet or Smartphone via the internet.

**MELConsole** provides remote maintenance and technical support to the owners of an Ecodan heating system, often resolving any technical issues they may have over phone. This service is provided completely free of charge with the majority of calls being solved online without a visit from an engineer, saving time, money and fuel.

## Remote Control and Monitoring

For a demonstration of Mitsubishi Electric's MELCloud, scan the QR Code or visit our website [www.melcloud.com](http://www.melcloud.com)

## Remote Maintenance and Technical Support

### Key Features and Benefits

- Solve your heating and hot water issues faster
- One phone call can often remove the need for a site visit
- Cut down on wasted travel time and cost
- Remote monitoring and fault diagnostics by phone
- Ideal solution for private homeowners, landlords and social housing providers

# Ecodan R744 4kW Monobloc Air Source Heat Pump with Thermal Store

QUHZ-W40VA / EHPT20Q-VM2EA

The Ecodan QUHZ system combines a 4kW outdoor unit with a 200 litre Thermal Store and is the ideal plug and play heating and hot water solution for properties with a low space heating requirement.

With very low market leading noise levels for its class and highly efficient hot water generation due to its unique CO<sub>2</sub> (R744) system design, this compact space saving product is capable of providing instantaneous hot water and removes the risk of legionella.

## Solution Key Features

- Self contained system, only requires water connections and can be powered via the Thermal Store
- No need for gas supply, flues or ventilation
- Low maintenance and very quiet operation
- Operates with outside temperatures as low as -15°C
- Simple grid connection as classified as Connect and Notify<sup>1</sup>
- Capable of being used in domestic hot water generation mode only
- MELCloud Wi-Fi connectivity and energy monitoring as standard
- Optimised low ambient defrost control and operation

## Outdoor Unit Key Technical Features

- Dimensions HxWxD (mm): 715 x 809 x 300<sup>2</sup>
- Sound Pressure Level at 1m: 43 dBA
- ErP: A+ (55°C)
- Powered via Indoor Unit (20A breaker)
- Recommended pipe size: 15mm
- Nominal flow rate: 6L/min

# Ecodan R32 6kW Monobloc Air Source Heat Pump

PUZ-WM60VAA(-BS)

## Solution Key Features

- Self-contained unit, only requiring water & electric connections
- No need for gas supply, flues or ventilation
- Low maintenance and quiet operation
- Operates with outside temperatures as low as -20°C
- Maintains rated heating capacity down to -10°C
- Simple grid connection as classified as Connect & Notify<sup>\*1</sup>
- Hybrid function, for use with conventional boilers
- MELCloud Wi-Fi connectivity and energy monitoring as standard
- Multiple unit cascade function
- Optimised low ambient defrost control and operation

## Outdoor Unit Key Technical Features

- Dimensions HxWxD (mm): 1020 x 1050 x 480
- Sound Pressure Level at 1m: 45 dBA
- ErP: A+++ (35°C)
- Breaker: 230VAC, 16A
- Recommended pipe size: 22mm
- Nominal flow rate: 17L/min

# Ecodan R32 11.2kW 3Ph Monobloc Air Source Heat Pump

PUZ-WM112YAA(-BS)

## Solution Key Features

- Self-contained unit, only requiring water & electric connections
- No need for gas supply, flues or ventilation
- Low maintenance and quiet operation
- Operates with outside temperatures as low as -25°C
- Maintains rated heating capacity down to -7°C
- Simple grid connection as classified as Connect & Notify<sup>\*1</sup>
- Hybrid function, for use with conventional boilers
- MELCloud Wi-Fi connectivity and energy monitoring as standard
- Multiple unit cascade function
- Optimised low ambient defrost control and operation

## Outdoor Unit Key Technical Features

- Dimensions** HxWxD (mm): 1020 x 1050 x 480
- Sound Pressure Level** at 1m: 47 dBA
- ErP:** A+++ (35°C)
- Breaker:** 400VAC, 16A
- Recommended pipe size:** 28mm
- Nominal flow rate:** 32L/min

# Energy Monitoring Pack

## EMP1, EMP2, EMP3 & EMPH

Ecodan Flow Temperature Control (FTC6 & FTC7) systems come with built in energy monitoring as standard. System users are able to measure both consumed electrical energy and produced heat energy to the nearest kWh.

### Key Features

- MID approved electric meters
- User display of consumed / produced energy
- MELCloud integration

Ref Code	Model Name	Description	Price (£)
EMPSTD	EMP1	Standard Pre-Installed Monitoring	-
283362	EMP2	All Model 1 Pulse/Wh Monitoring +2 Electric Meters	92

\*Note that the interface is included as standard within Ecodan system packages. Please contact your local sales office for guidance.

## Controls

The FTC6 & FTC7 Flow Temperature Controllers are designed specifically by Mitsubishi Electric to integrate with the Ecodan PUZ-WM & PUZ-WZ monobloc air source heat pump range and a third party cylinder.

The FTC2BR has been developed to allow the Ecodan PUZ-WM range to interface with third party or BEMS (Building Energy Management System) controls.

# Fan Assisted Radiators

## i-LIFE2 Slim

The i-Life2 Slim Fan Assisted Radiator designed to work seamlessly with existing heating or renewable technologies

### Key Features

- Stylish - Being only 13cm deep, the sleek and elegant satin-white, wall mounted cabinet is designed to blend seamlessly into any setting
- Flexible - Packed with advanced controls and functions, the i-Life2 Slim will work with traditional heating or renewable systems such as heat pumps
- Easy to Use - Airflow is managed by deflectors at the top of the unit, which open and close automatically ensuring fast even heat distribution

# Ventilation

## VL-(250/350/500)CZPVU-(L/R)-E

### Solution Key Features

- Ultra quiet noise levels
- Optional particulate matter filter and NOx filtration
- Full summer bypass function
- Digital controller included for ease of commissioning and use
- Automated boost via live switch or volt free contact
- Cloud control
- MELCloud Wi-Fi connectivity available

### Key Technical Features (250-350-500)

- Airflow (l/s): 69-88-138
- Weight (kg): 26-32-40
- Dimensions HxWxD (mm): 563 x 595 x 386 - 623 x 658 x 462 - 632 x 725 x 556
- Duct Size (mm): 125 - 150 - 160/180

## VL-100

### Solution Key Features

- Effective single room ventilation
- Total heat recovery (sensible and latent)
- Simple wall mounted installation
- Low power consumption

### Key Technical Features

- Airflow (l/s): 17 - 29
- Sound Levels (dB(A)): 27-38
- Weight (kg): 7.5
- Up to 79% temperature efficiency
- Dimensions HxWxD (mm): 320 x 200 x 265

## EHWT17D-MHEDW

### Solution Key Features

- Low running costs for owners
- Low environmental impact
- Simple pressure balancing and flow control
- No disturbance for owners
- Modular design for easy servicing
- Can be concealed in a maintenance cupboard

### Key Technical Features

- Highly efficient heating and hot water production
- Low quantity of lower GWP R32 refrigerant
- PIC valve network control
- Ultra-low noise output
- Removable heat pump module

Ref Code	Model Name	Description	Price (£)
Water Source			
-	EHWT17D-MHEDW	170L R32 3Ph Mono WSHP Indoor Unit Std With Magnetic filter, G3 Compliance Kit, PICV, Bypass Valve and Strainer	8,027

## CAHV-R450YA-HPB

### Solution Key Features

- Low GWP R454C refrigerant and reduced embodied carbon helps achieve CSR targets
- Water flow temperatures from 24°C to 70°C without boost heaters results in cost and energy savings
- Advanced heat exchange design combined with the properties of R454C refrigerant enables a shorter defrost time
- Low frequency compressor control improves energy efficiency and product operation

### Key Technical Features

- Single module capacity of 7.8 - 640kW
- Flow temperatures from 24°C - 70°C
- Operation down to -25°C

Ref Code	Model Name	Description	Price (£)

<sup>\*1</sup> Price includes differential pressure switch and a Y type strainer.

# QAHV-N560YA-HPB

## Solution Key Features

- Specifically designed for commercial sanitary hot water
- Highly efficient at high flow temperatures
- Utilises CO<sub>2</sub> refrigerant with a GWP of 1
- Includes a unique twisted and spiral gas cooler to enhance energy efficiency
- Super low noise levels
- Able to utilise with an indirect system

## Key Technical Features

- Single module capacity of 40kW - 640kW
- Flow temperatures from 55°C - 90°C
- Full heating capacity down to -3°C outdoor temperature
- Operation down to -25°C

# CRHV-P600YA-HPB

## Solution Key Features

- Ground or water source
- Multiple unit cascade control
- Split refrigerant circuits to provide 50% back up
- Ability to rotate units based on accumulated run hours
- Low maintenance, hermetically-sealed monobloc design
- Low on-site refrigerant volume

## Key Technical Features

- Single module capacity of up to 960kW
- Flow temperatures from 30°C - 65°C
- Sound pressure level of 50 dB(A) at 1m

# How to contact us

Should you have any question regarding our products and services, please find below a summary sheet of how to contact us.

## Pre-Sales

An Ecodan & Lossnay design service for our partners.

 **01707 278 666** (Option 3)

 **ecodan.technical@meuk.mee.com**

## Sales Team

A regional sales service that covers the whole of the UK mainland are available on the following numbers:

 London North & South East: **01707 282499**

London North & South West: **01707 282489**

South West, Wales & Midlands: **01707 278022**

Midlands: **01707 278730**

North East: **01707 278566**

North West: **01707 278023**

Scotland: **01707 282487**

 **MEU-UKLES121Heating@meg.mee.com**

## Operations Team

We have dedicated resources supporting you managing your orders. Please contact the relevant team using the following details:

Direct Customers:

 **01707 278 555**

 **lesheating.admin@meuk.mee.com**

Merchants & Distribution:

 **01707 282 855**

 **lesmerchantadmin@meuk.mee.com**

### After Sales

A dedicated in-house after sales service for heating professionals.

**0161 866 6089**

**Option 1:** Homeowner

**Option 2:** Support for Air Conditioner, Ventilation, Commercial Heating, Modular Chillers

**Option 3:** Residential Ecodan installer or service provider

**residential.helpdesk@meuk.mee.com**

### Learning Center

Whether you are trained on ecodan product and wish to be kept informed on our latest products or are a new installer wishing to learn about our range, we have the right training for you.

**lestechtraining@meuk.mee.com**

### Partner Programme

Should you have any interest in becoming a partner and benefiting from our unique range of services, please do not hesitate to contact us.

**01707 288 757**

**partner@meuk.mee.com**
