Ecodan Heat Pumps

Renewable Heating Systems

There is now no doubt that the world is in a climate crisis and that we need to act immediately to avoid catastrophic climate change. The UK Government have reacted by being the first major economy to pass net zero (Greenhouse Gas) emission laws. Renewable technologies, such as heat pumps, have become an integral part of the solution to the problem of reducing carbon emissions generated through heating.

As a market leader in both commercial and domestic heat pumps, Mitsubishi Electric is a pioneer in the development of this renewable technology. Around the world, heat pumps have been utilised for decades and Mitsubishi Electric has refined this technology to produce Ecodan - one of the most advanced, efficient heating systems available on the market today.

TV presenter, architect, lecturer and writer, George Clarke is a passionate advocate of design excellence and high levels of quality in the construction industry.

“ The way we design, build, heat, power and recycle our homes needs to change, and change quickly, and renewable heating is an important part of our future.

I'm therefore delighted to associate myself with Ecodan, the market-leading brand of heat pumps built here in the UK and which can help reduce energy bills and lower emissions for almost any home. ”

George Clarke

Ecodan Brand Ambassador

Visualise an ecodan heat pump outside your home

This AR app makes it easier to switch and plan installations with confidence.

Using the app is simple:

1. Choose the Ecodan heat pump recommended for you in your **Find My Ecodan Report**. Haven't completed it yet? Visit findmyecodan.co.uk to find the right heat pump for your home.
2. Stand facing an exterior wall and point your phone's camera at the floor.
3. Tap **"Place Ecodan"**, take a picture, and save or share it.

Outdoor Units

The Ecodan range of heat pumps are self-contained units that only require water and electrical connections. Our innovative range of products are easy to install, simple to maintain and offer market leading low noise levels.

Ecodan heat pumps are available from 5kW up to 640kW, making them suitable for virtually any property, from small flats to large detached houses, from an office block to a school. They are the renewable, low carbon alternative to traditional high carbon heating systems.

Cylinders

The Ecodan range of Packaged and Pre-Plumbed Cylinders offer a highly adaptable heating solution for a variety of homes. Designed specifically to operate with Ecodan heat pumps, the cylinders are offered in a number of models.

A Packaged option with a white goods finish and a Pre-plumbed option for ease of installation, available in slimline and standard variants with the flexibility to meet most installation requirements.

Fan Assisted Radiators

Our i-LIFE2 Slim fan assisted radiators are an ideal compliment to either an air source heat pump or your existing heating or gas boiler system. Offering fast response times and intelligent control for the ultimate heating experience.

Ventilation

With over 50 years of experience in manufacturing heat recovery ventilation, Mitsubishi Electric knows that the best ventilation systems to maximise the health and wellbeing of occupants need to be quiet and easily maintainable.

The residential range of Lossnay heat recovery systems are easy to install and commission, offer market leading noise levels, and have easily accessible filters.

Residential Air Conditioning

Mitsubishi Electric's residential series provides the perfect solution to heat and cool your home or garden office.

With compact wall mount design and multi colour options Mitsubishi Electric's residential series provides the aesthetic appeal that homeowners desire.

Partner Programme

The Mitsubishi Electric Partner Programme forges the link between our innovative products and your professional installations. Once accredited, your company can benefit from our Relationship Development Fund (RDF) which will grow with the amount of business you do with us. This reward scheme was created to financially support joint sales and marketing activities that will help improve and expand your business.

Summary of Accredited Installer Benefits:

■ Showroom Equipment

All partners are eligible to purchase Mitsubishi Electric equipment for their premises and showroom. Once purchased and installed, we will match fund you up to 50% from the RDF programme. Dummy units can be up to 100% RDF funded.

■ Website Development

We can support you in the redesign or updates on of your company's website to include our logos, product shots and information on our product range. Please see our Partner Dashboard for content.

■ Vehicle Livery

Promote your company alongside Mitsubishi Electric on your company vehicles and we will match fund you up to 50% from the RDF programme.

■ Workwear and Promotional Goods

We offer a huge range of items from brands such as Nike, RAB, The North Face, Stanley and more to help you promote your business and Partnership with Mitsubishi Electric. Visit our webshop to see our full range of options that can be up to 50% or 100% RDF funded.

■ Product Training

We offer a variety of training courses, ranging from the apprentice level to the seasoned installer, all of which are designed to enable technical engineers to design, install or maintain our systems. Use 100% RDF to fund your colleagues training sessions with us online or face to face. This includes our new LCL courses.

■ Advertising and Brochures

We are happy to support partners with the production of your company joint promotions, press and brochures using up to 50% RDF.

■ Exhibitions and Seminars

Exhibitions and seminars provide an ideal opportunity to promote your business and show potential customers the benefits of Mitsubishi Electric's product range. We can help you plan, support and contribute towards the costs.

■ Ecodan Selection Tool for Installers

This online tool has a free to access section designed for homeowners and a more immersive section for partners who have registered a request for access. This installer section allows for whole house and room by room designs to be undertaken and will issue a professional report which can be used to support your design process.

■ Customer Hospitality

Developing business relationships in an informal environment can be mutually beneficial to both you and your clients. We will match fund qualified customer hospitality activity via the RDF programme, where a Mitsubishi Electric representative attends. We also now offer 100% RDF events to save the leg work in hosting your customers. See the Partner Dashboard for our very latest events. Previous events have included the 6 Nations Rugby, NFL, Ashes Cricket and much more. Get in contact to find out about our latest events!

■ Technical Helpdesk

To assist our partners in the repair and maintenance of Mitsubishi Electric equipment, we have a dedicated team of industry experienced engineers based in the UK who will endeavour to speedily diagnose faults and offer solutions to the problems.

Overview of heating benefits per account status

Product Type	Standard Account Holder (SAH)	Accredited Ecodan Installer (AI)	Business Solutions Partner (BSP)
Ecodan Selection Tool Access	No	Yes	Yes
Product Warranty (Ecodan <20kW)	3 Years	5 Years ^{*1} ^{*2}	7 Years ^{*1}
Free Training Sessions (per annum)	0	0 ^{*3}	5 ^{*3}

^{*1} For air source heat pump outdoor units only. ^{*2} Extension from 5 years to 7 years available via a warranty extension package (See page 27).

^{*3} Training sessions can be 100% funded via RDF. For complete details please consult our T&C.

For further information please contact your Partner Programme Co-ordinator at partner@meuk.mee.com or call **01707 288757** (Please note this is for direct sales only)

Coastal Protection Models (-BS)

The Ecodan coastal models are designed to protect against the corrosive effects of environments that are in close proximity to the sea. By enhancing the corrosion protection of key components, we can ensure that even in aggressive coastal areas, Ecodan will continue to provide low cost renewable heating for years to come.

Note: 1. If possible avoid siting the Ecodan in direct exposure to sea spray. 2. Ensure rain water is able to fall onto the Ecodan and avoid placement directly under building eaves. 3. Ensure horizontal installation for good drainage. 4. Regular inspections and washing of unit with fresh water is recommended. Any scratches should be repaired as soon as possible.

MELCloud Home and MELConsole Wi-Fi Connectivity

MELCloud Home is a cloud based solution for controlling your Mitsubishi Electric Ecodan heating system either locally or remotely by PC, Mac, Tablet or Smartphone via the internet.

MELConsole provides remote maintenance and technical support to the owners of an Ecodan heating system, often resolving any technical issues they may have over phone. This service is provided completely free of charge with the majority of calls being solved online without a visit from an engineer, saving time, money and fuel.

Ecodan R290 5kW Monobloc Air Source Heat Pump

PUZ-WZ50VAA(-BS)

Key Features

- **A+++ heating efficiency (at 35°C, range A+++ - D)**
Minimised energy consumption
- **Ultra quiet noise levels**
Flexible product placement
- **MELCloud enabled**
Remote control, monitoring, maintenance and technical support
- **High water temperature of up to 75°C**
Ideal for energy storage
- **Fully electric source of heating and hot water**
Zero carbon ready

Outdoor Unit Key Technical Features

- **Dimensions HxWxD (mm):** 1020 x 1050 x 480
- **Sound Pressure Level at 1m:** 40 dBA
- **ErP:** A+++ (35°C)
- **Breaker:** 230VAC, 16A
- **Recommended pipe size:** 22mm
- **Nominal flow rate:** 14L/min

Ecodan R290 10kW 1Ph Monobloc Air Source Heat Pump

PUZ-WZ100VAA(-BS)

Key Features

- **A+++ heating efficiency (at 35°C, range A+++ - D)**
Minimised energy consumption
- **Ultra quiet noise levels**
Flexible product placement
- **MELCloud enabled**
Remote control, monitoring, maintenance and technical support
- **High water temperature of up to 75°C**
Ideal for energy storage
- **Fully electric source of heating and hot water**
Zero carbon ready

Outdoor Unit Key Technical Features

- **Dimensions** HxWxD (mm): 1040 x 1050 x 480
- **Sound Power Level:** 55dBA
- **ErP:** A+++ (35°C)
- **Breaker:** 230VAC, 32A
- **Recommended pipe size:** 28mm
- **Nominal flow rate:** 34L/min

Ecodan R32 5kW

Monobloc Air Source Heat Pump

PUZ-WM50VHA(-BS)

Key Features

- Self-contained unit, only requiring water & electric connections
- No need for gas supply, flues or ventilation
- Low maintenance and quiet operation
- Operates with outside temperatures as low as -20°C
- Maintains rated heating capacity down to -7°C
- Simple grid connection as classified as Connect & Notify
- Hybrid function, for use with conventional boilers
- MELCloud Wi-Fi connectivity and energy monitoring as standard
- Multiple unit cascade function
- Optimised low ambient defrost control and operation

Outdoor Unit

Key Technical Features

- Dimensions HxWxD (mm): 943 x 950 x 330¹
- Sound Pressure Level at 1m: 47 dBA
- ErP: A+++ (35°C)
- Breaker: 230VAC, 16A
- Recommended pipe size: 22mm
- Nominal flow rate: 14L/min

Ecodan R32 8.5kW 1Ph Monobloc Air Source Heat Pump

PUZ-WM85VAA(-BS)

Key Features

- Self-contained unit, only requiring water & electric connections
- No need for gas supply, flues or ventilation
- Low maintenance and quiet operation
- Operates with outside temperatures as low as -20°C
- Maintains rated heating capacity down to -10°C
- Simple grid connection as classified as Connect & Notify
- Hybrid function, for use with conventional boilers
- MELCloud Wi-Fi connectivity and energy monitoring as standard
- Multiple unit cascade function
- Optimised low ambient defrost control and operation

Outdoor Unit Key Technical Features

- Dimensions HxWxD (mm): 1020 x 1050 x 480
- Sound Pressure Level at 1m: 45 dBA
- ErP: A+++ (35°C)
- Breaker: 230VAC, 25A
- Recommended pipe size: 28mm
- Nominal flow rate: 24L/min

Energy Monitoring Pack

EMP1, EMP2 & EMPH

Ecodan Flow Temperature Control (FTC7) systems come with built in energy monitoring as standard. System users are able to measure both consumed electrical energy and produced heat energy to the nearest kWh.

Key Features

- MID approved electric meters
- User display of consumed / produced energy
- MELCloud integration

Ref Code	Model Name	Description	Price (£)
EMPSTD	EMP1	Standard Pre-Installed Monitoring	-
283362	EMP2	All Model 1 Pulse/Wh Monitoring +2 Electric Meters	96

Controls

TheFTC7 Flow Temperature Controllers has been designed specifically by Mitsubishi Electric to integrate with the Ecodan R32 and R290 monobloc air source heat pump range .

The FTC2BR has been developed to allow the Ecodan R32range to interface with third party or BEMS (Building Energy Management System) controls.

Fan Assisted Radiators

i-LIFE2 Slim

The i-Life2 Slim Fan Assisted Radiator designed to work seamlessly with existing heating or renewable technologies.

Key Features

- Stylish - Being only 13cm deep, the sleek and elegant satin-white, wall mounted cabinet is designed o blend seamlessly into any setting
- Flexible - Packed with advanced controls and functions, the i-Life2 Slim will work with traditional heating or renewable systems such as heat pumps
- Easy to Use - Airflow is managed by deflectors at the top of the unit, which open and close automatically ensuring fast even heat distribution

Residential Ventilation

VL-250/350/500CZPVU-L/R-E

Key Features

- Ultra quiet noise levels
- Optional particulate matter filter and NOx filtration
- Full summer bypass function
- Digital controller included for ease of commissioning and use
- Automated boost via live switch or volt free contact
- Optional cloud control for connection to MELCloud and smart devices

Key Technical Features (250-350-500)

- Airflow (l/s): 69-88-138
- Weight (kg): 26-32-39
- Dimensions WxDxH (mm): 595 x 386 x 565 - 658 x 462 x 623 - 725 x 586 x 632
- Duct Size (mm): 125 - 150 - 160/180

Residential Ventilation

CP-500CM-L/R Cooling Module

Key Features

- Multi-zone activation - connect up to four room temperature sensors
- Low system height
- Quiet performance
- Eco-friendly & efficient - the inverter-controlled compressor uses lower GWP R32 refrigerant
- Hassle-free installation - designed for simplicity
- Flexible airflow - operational airflow as low as 50l/s
- Behind-the-scenes control - ensures adherence to Part O regulations

Key Technical Features

- Airflow (l/s): 50 - 140
- Weight (kg): Module 38 - System 77
- Dimensions WxDxH (mm):
Module: 725 x 556 x 497
System: 725 x 586 x 1169
- Duct Spigot Size (mm): 160

Residential Air Conditioning

Premium Plus series - wall mounted

The MSZ-RZ range blends low GWP refrigerant, with a high heating performance efficiency in low outdoor temperatures. Excellent air purifying functions and many other smart features makes it an excellent choice.

Key Features

- Built in Plasma quad technology neutralises viruses, bacteria, allergens, PM2.5 mould and dust inhibiting 99.8% of SARS-CoV-2*
- 3D i-see sensor provides energy efficient, customised comfort by automatically monitoring room occupancy position and body temperatures
- Built in Wi-Fi interface enables system control & monitoring via the Mitsubishi Electric MELCloud app
- Excellent heating performance delivers warmth to your room at low ambient outdoor temperatures
- 'Circulator' mode to automatically circulate the air and eliminate cold spots
- User-friendly backlit controller for remote operation, including scheduling options

Residential Air Conditioning

Premium series - wall mounted

The MSZ-LN range blends energy efficiency with a sophisticated streamlined design.

With sizes ranging from 1.8kW to 6.1kW, it is aesthetically pleasing and creates the perfect atmosphere for any indoor space.

Natural White (W)

Key Features

- Plasma Quad Plus Technology neutralises, viruses, bacteria, allergens and other contaminants
- Built-in 3D i-see sensor automatically detects room occupancy and body temperature
- Dual Barrier Coating - Prevents dust, dirt and grease accumulation in the unit

Ruby Red (R)

Onyx Black (B)

Pearl White (V)

Residential Air Conditioning

Zen series - wall mounted

The Zen series complements modern interior décor and blends with more traditional styles of home.

With sizes ranging from 1.8kW to 5.0kW, the units embody elegance with near-silent operation.

Black (B)

Key Features

- Powerful performance underpinned by energy efficiency (A+++ energy rating)
- Zen indoor units have two types of filter to ensure air purity
- Wi-Fi controllable and compatible with Amazon Alexa and Hey Google

Silver (S)

White (W)

Residential Air Conditioning

Elegance series - wall mounted

The mid-range Elegance series combines simplistic design with energy efficient performance. With sizes ranging from 1.5kW to 7.1kW.

Its air purifying filter generates stable anti-bacterial, anti-mould and deodorising effects. With noise levels as low as 18 dBA, the Elegance series takes comfort cooling to a new level.

Key Features

- Cost-effective and energy efficient, proving friendly to both the environment and the home owner
- Double vanes ensure all-round comfort by distributing airflow evenly throughout the room
- Weekly timer ensures that your room is always at the perfect temperature.

Residential Air Conditioning

Classic series - wall mounted

With sizes ranging from 2.5kW to 7.1kW, this cost effective system incorporates inverter technology which continuously regulates the temperature.

It's not just about cool air; it's about peace of mind, knowing that if the temperature changes outside, it will always be just the way you want it, inside.

Key Features

- Optional Wi-Fi interface permits smart control of the unit from any device
- Energy efficient, cost-effective air conditioning system for the modern home
- A daily timer allows control of scheduling to fit the user's lifestyle

Residential Air Conditioning

Elegance series - floor mounted

The Elegance series is extremely versatile and is designed for wall-attached installation at floor level - perfect for conservatories or loft rooms where wall space is at a premium.

Its lightweight, compact design makes it easy to install and maintain. To aid control and boost energy savings, the controller has an in-built 7-day timeclock.

Key Features

- Simple, flat asymmetrical design; easy on the eye, easy on the atmosphere
- Swing-vane mode with auto-vane shutter delivers a natural comfortable airflow
- Ideal for home owners who prefer not to have high wall-mounted units

Commercial Heating

Ecodan Hydrodan EHWT17D-MHEDW

Key Features

- Low running costs for owners
- Low environmental impact
- Simple pressure balancing and flow control
- No disturbance for owners
- Modular design for easy servicing
- Can be concealed in a maintenance cupboard

Key Technical Features

- Highly efficient heating and hot water production
- Low quantity of lower GWP R32 refrigerant
- PIC valve network control
- Ultra-low noise output
- Removable heat pump module

R32

Ref Code	Model Name	Description	Price (£)
Water Source			
-	EHWT17D-MHEDW	170L R32 3Ph Mono WSHP Indoor Unit Std with Magnetic filter, G3 Compliance Kit, PICV, Bypass Valve and Strainer	8,014

Ecodan QAHV-N560YA-HPB

Key Features

- Specifically designed for commercial sanitary hot water
- Highly efficient at high flow temperatures
- Utilises CO₂ refrigerant with a GWP of 1
- Includes a unique twisted and spiral gas cooler to enhance energy efficiency
- Super low noise levels
- Able to utilise with an indirect system

Key Technical Features

- Multiple unit capacity of 40kW - 640kW
- Flow temperatures from 55°C - 90°C
- Full heating capacity down to -3°C outdoor temperature
- Operation down to -25°C

R744

Commercial Heating

Ecodan CAHV-Z450YA-HPB

Key Features

- Low GWP R290 refrigerant and reduced embodied carbon helps achieve CSR targets
- Achieves 75°C outlet temperature down to -15°C ambient temperature for continuous heating provision
- Multiple unit cascade control up to 280kW* capacity provides design flexibility
- Water flow temperatures from 24°C to 75°C without boost heaters, results in cost and energy savings

* At nominal conditions A7W35

Key Technical Features

- Flow temperatures from 24°C - 75°C
- Operation down to -25°C
- Achieves 75°C outlet temperature down to -15°C ambient temperature

Ecodan CAHV-R450YA-HPB

Key Features

- Low GWP R454C refrigerant and reduced embodied carbon helps achieve CSR targets
- Water flow temperatures from 24°C to 70°C without boost heaters results in cost and energy savings
- Advanced heat exchange design combined with the properties of R454C refrigerant enables a shorter defrost time
- Multiple unit cascade control from 7.8kW to 640kW* capacity provides design flexibility

* At nominal conditions A7W35

Key Technical Features

- Flow temperatures from 24°C - 70°C
- Operation down to -25°C
- Achieves 70°C outlet temperature down to -20°C ambient temperature

Notes: Price includes differential pressure switch and a Y type strainer.

How to contact us

Should you have any question regarding our products and services, please find below a summary sheet of how to contact us.

Pre-Sales

An Ecodan & Lossnay design service for our partners.

 **01707 278 666** (Option 3)

 **ecodan.technical@meuk.mee.com**

Sales Team

A regional sales service that covers the whole of the UK mainland are available on the following numbers:

 London North & South East: **01707 282499**

London North & South West: **01707 282489**

South West, Wales & Midlands: **01707 278022**

Midlands: **01707 278730**

North East: **01707 278566**

North West: **01707 278023**

Scotland: **01707 282487**

 **MEU-UKLES121Heating@meg.mee.com**

Operations Team

We have dedicated resources supporting you managing your orders. Please contact the relevant team using the following details:

Direct Customers:

 **01707 278 555**

 **lesheating.admin@meuk.mee.com**

Merchants & Distribution:

 **01707 282 855**

 **lesmerchantadmin@meuk.mee.com**

After Sales

A dedicated in-house after sales service for heating professionals.

0161 866 6089

Option 1: Homeowner

Option 2: Support for Air Conditioner, Ventilation, Commercial Heating, Modular Chillers

Option 3: Residential Ecodan installer or service provider

residential.helpdesk@meuk.mee.com

Learning Center

Whether you are trained on ecodan product and wish to be kept informed on our latest products or are a new installer wishing to learn about our range, we have the right training for you.

lestechtraining@meuk.mee.com

Partner Programme

Should you have any interest in becoming a partner and benefiting from our unique range of services, please do not hesitate to contact us.
