RULES FOR USING THE CERTIFICATE

This Certificate may only be used within the period of its validity and provided the provisions of the standards according to which the product has been certificated remain valid. If the normative documents applicable to the certified product have changed or new normative documents have been issued, the usability of the Certificate must be reviewed.

The Certificate may only be used as a certificate for the product specified on the preceding page. This also applies to its use in advertising, promotional and commercial materials. This certificate may be copied in its entirety without written consent of the SZÚ. Unauthorized or deceptive use of the Certificate may result in its withdrawal.

It is prohibited to change, amend or overwrite the data contained in the Certificate.

The Certificate may not be used to document the properties of the products changed without consent of the SZÚ in such a way that conformity with the documents cited in this Certificate has been affected.

The Certification Body requires the Holder of the Certificate to keep records of all the complaints and corrective actions applicable to the products covered by this Certificate.

Certificate validity is conditional to consistence of the manufacturing method with the established factory production control system and to observance of the conditions of a contract for surveillance of the products being placed on the market.

The inspection period is 1 year.
