

Corporate Seminars at Mitsubishi Electric...

We are sure you are aware that Mitsubishi Electric hold many technical product training courses. Have you ever wanted to combine this type of information whilst focusing on your specific business needs? Do you have the space to get all relevant parties together in one place for a networking event combined with some key messages? Why not use our facilities to host a seminar?

Held at our Head Office in Hatfield, our increasingly popular Seminars provide a great means of presenting valuable information to a large audience and enable us to update your key contacts on industry or product related issues. Our Hatfield venue is conveniently based close to the A1 and M1 motorways and provides the perfect setting in which to host a Seminar for up to 120 people... [more](#)

The main presentations take place in our fully equipped 'Tokyo Suite' with smaller meeting rooms alongside providing ideal space for smaller sessions. Lunch and refreshments can be booked at given intervals throughout the day and are served in a comfortable and spacious soft area next to the Tokyo Suite, in which guests can relax and enjoy the opportunity to network.

A number of corporate clients have already taken advantage of the facilities we have to offer. We have previously hosted events where clients have brought together their consultants, contractors and design teams to discuss products, roll out programmes, specifications and the benefits of partnering together.

“Mitsubishi gave a series of presentations along with workshops to demonstrate the application of heat pumps, controls and systems, all of which are aimed at reduction of grid electricity consumption and CO2 emissions. Our clients, who are end users and FM providers were impressed with the professionalism, excellent facilities but above all the experience and commitment exhibited by all the Mitsubishi staff involved with this very successful event”

Paul Carey - Mechanical & Electrical Director, BBI

Most recently, we hosted our own successful Seminar on the issues surrounding the Replacement of R22 refrigerant. Throughout the day we highlighted the potential impacts and gave tangible solutions. In addition to our own presentations, there were a number of external guest speakers who were able to give our clients a valid insight from the perspective of an end user, a major refrigerant manufacturer and a leading UK contractor. Such was the success and popularity of this Seminar that more dates are scheduled, the next one being March 26th.

“All the days presentations were useful, informative and thought provoking - a very enjoyable day”

Rob Williamson
- Mapeley Estates

“The Seminar helped to dispel much of the myth and conjecture surrounding R22 Phase Out and despite the scope and the costs of the task ahead, it's somewhat comforting to know we're not alone.”

Hilton Hotels

If you'd like to use our facilities for a meeting or to arrange a Seminar that's tailored to meet your individual requirements, the Corporate Sales team will be happy to help. Please call us on **0870 3000 070**
